August 2020 - May 2022

### **Bakersfield College, Bakersfield, CA — A.S. Computer Science**

June 2017 - May 2020

## PROJECTS

### **HTVI — Social Justice Hackathon 2018 (Bakersfield College)**

Human Trafficking Victim Identifier App, and application that could be used by first responders and health care professionals to identify victims of human trafficking that cannot always be obvious. The app allowed victims to secretly give signs safely via a 'normal' health screen questionnaire with their aggressor still in the room. As a result won second place overall in the hackathon along with my teammates.
